

can go into such detail as the “trailing 12 month cashflow”, “most recent monthly % change of short interest”, and “close above 200 day moving average.”

QuoteCenter also gives you access to Reuters news as well as numerous third-party news sources, so you'll be on top of what is happening in the markets and around the world.

You'll get historical intraday data (minute based) going back 250 days and tick data going back 30 days so you can easily view the intraday history that's important to you. This extensive data helps you find profitable intraday systems when paired with MetaStock Professional.

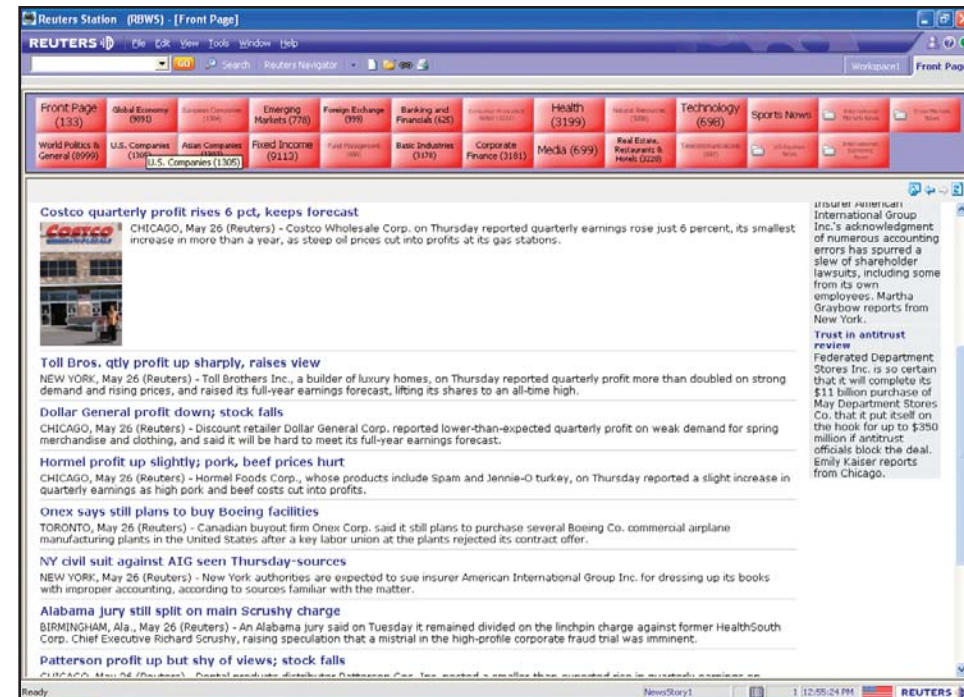

Combine QuoteCenter with MetaStock Pro

By pairing MetaStock QuoteCenter with MetaStock Professional, you can backtest your trading ideas, apply Expert Advisors, and scan the markets to receive unbeatable buy and sell signals in real-time.

Unequaled Data

QuoteCenter's data is the best there is. Why? Because it is the cleanest you can get. Reuters goes to great lengths to ensure their data is accurate. This data is even automatically corrected when a false price comes through.

This information isn't limited to just the U.S. markets. You are going to have access to global data that no other real-time platform can deliver.

The best news anywhere can only be found on MetaStock QuoteCenter. Just click on a headline to open the full story.

Select up to two of the four MetaStock QuoteCenter data packages, including the North American package, the European package, the Asian package, and the global futures package. All packages include Foreign Exchange Cash Currency data, at no extra cost.

Real-time or Delayed Data

QuoteCenter can broadcast the exchanges within the data packages on a real-time or a delayed basis.

This means that those markets you trade can be real-time, but you can stay informed with what is happening on the other markets and follow them on a delayed basis. Just pay the exchange fees for the markets you want on a real-time basis.

This new real-time platform is powered by Reuters. Its superior quality along with the sheer volume of usable information completely dwarfs other data services.

REUTERS

MetaStock QuoteCenter™ is the new real-time software and data feed from Equis International that brings premium level real-time market information to individual investors at an affordable price.

MetaStock QuoteCenter fuses the quotes, fundamentals, news information, tools and analytics you need into a single desktop customized to the way you work. You can use the many pre-defined workspaces, such as the "equity trader", "futures trader" and "FOREX trader", or easily customize your desktop to view the content you use most often.

It all adds up to a personal desktop that works the way you do - giving you a fast, accurate picture of what's happening in the market so you can act with confidence.

MetaStock QuoteCenter has so much information available that you'll never find yourself wanting for more data.

As part of the basic subscription package you'll have a portfolio manager to help you quickly see where your portfolio is right now.

You'll also get MarketWatch quote screens with over 700 key financial measures that allow you to see almost anything on the symbol you have selected. These measures

Here's what QuoteCenter can do for you.

Save time - Rich navigation and customization means you save time and work more efficiently.

Quickly access information - Instantly find all available news, as well as technical, exchange and company data you need.

Track an unlimited number of securities - You can track an unlimited number of securities and you can view up to 500 securities at a time with the basic package. For a small fee, you can view up to 1000 securities at a time.

Easily link displays - A single click brings up a linked display for a symbol with charts, multimedia news and pictures, tickers, alerts, full quotes, analytics and more. You will instantly see all areas that affect a symbol's pricing.

Whatever your investing needs, MetaStock QuoteCenter has the tools to make your investing more productive.

Save settings - Access your own settings and favorites even when logging in from a different location.

Create your own shortcuts - Save time assigning your most frequent tasks to function keys or double-clicks. We try hard to make your analysis as quick and easy as possible.

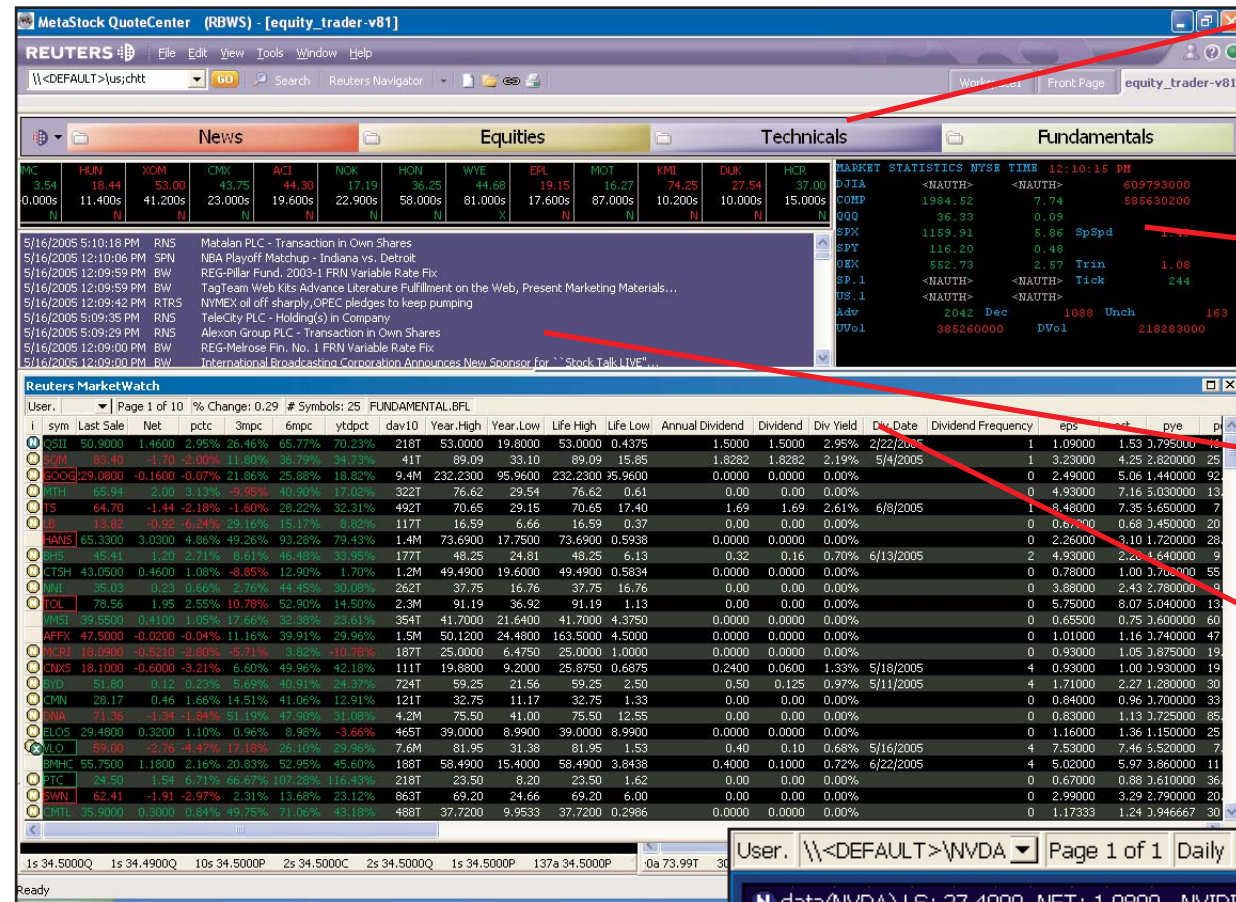

Get a sense of market direction - Scan market developments using Reuters Top News summaries. This amazing news gives you quick updates that let you see the whole picture.

Perform market analysis - QuoteCenter contains a range of analysis tools from pre-defined displays that weave together price, fundamental and technical data, news and analysis to quick calculators and charting tools.

Access depth and breadth of information - Just imagine what kind of information 700 data fields will give you on a symbol. Information such as Net income quarter change or close above a 50 day moving average.

Rank of key financial measures - Rank the key measures found within the data fields for quick decisions.

Hedge your bets with an options play- Options traders can monitor the complete trading picture with OptionWatch. The options you follow DO NOT count against the number of symbols that can be viewed, unlike other data services. Refresh the OptionWatch screen as often as you like to get the most current information.

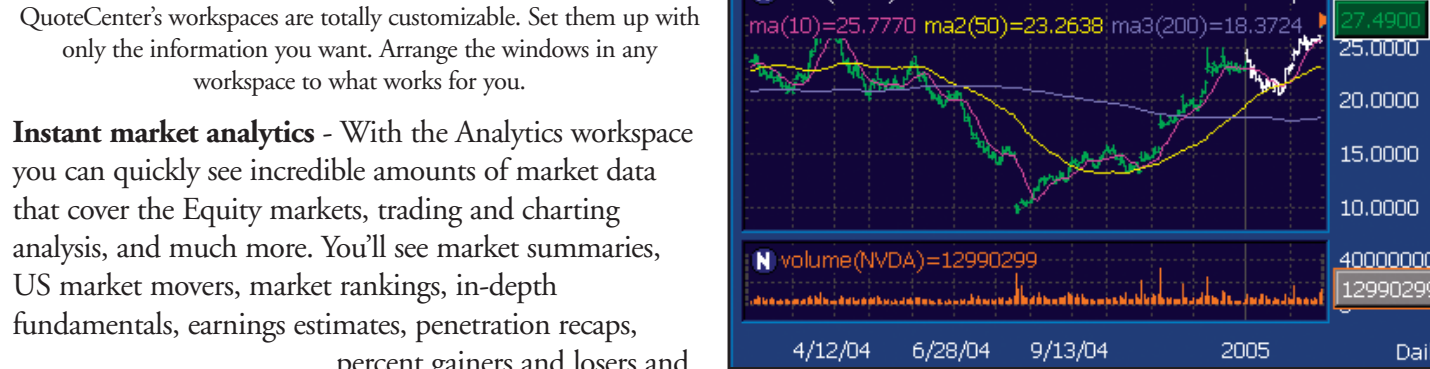

QuoteCenter's quick access menus lead you to even more market information.
